

# SMACNA-ST. LOUIS ANNUAL PRODUCTS TRADE SHOW COMING SOON -- SEPTEMBER 7, 2005!

Once again, SMACNA -St. Louis will host its annual trade show at Queeny Park's Greensfelder Recreation Center, pictured below in 2004. Along with the product viewing of over 70 booths, guests will have the opportunity to attend one of the two important seminars:

Seminar #1: VAV Design for Improved Indoor Air Quality ~National Speaker: William J. Coad, P.E. President of Coad Engineering Enterprises & past President of American Society of Heating, Refrigerating, and Air Conditioning (ASHRAE). Highlights include: Performance characteristics of VAV systems • Shortcomings and occupant comfort • Energy consumption • Indoor IAQ quality • Method for improving air quality performance • Reducing cost and complexity as an alternative to today's state of the art.

*Attendants may earn State of Missouri Professional Engineering Development Hours (PDH).*

Seminar #2: SMACNA's Architectural Sheet Metal Inspection Guide & Architectural Metals and Green Buildings ~ National Speaker: Eli Howard, III • SMACNA National Group Director Technical Resources. *Attendants may earn American Institute of Architects AIA/CES Learning Units (Health & Safety).*

**PRE-SEMINAR REGISTRATION IS REQUIRED TO RECEIVE LEARNING UNIT CREDITS!** Reserve your space now by contacting the association office at (314) 427-8330.
